

# Who's On OUR Side?

## MIDTERM REPORT CARD: **REP. JOHN PETERSON**

The AFL-CIO fights for America's working families. That comes with a responsibility to be a watchdog that keeps an eye on Congress and lets working families know who is on their side—and who is not—on key issues that affect us every day. As Congress has completed the first half of its term, we have reviewed the record of every senator and representative from Pennsylvania to see where they have stood on issues that matter to working families. Working families—with the facts in hand—have the power to take back the country and make sure we are represented by leaders who are fighting for our best interests—not special interests—every day.
