

**AN IMPORTANT MESSAGE FROM THE AFL-CIO**

Question 1:  
**TROUBLE**  
For Maine

TABOR will cut home health care and Meals on Wheels for seniors and prevent Maine from helping seniors afford prescription drugs. It will erode our police, fire and public safety services and prohibit Maine from helping us in emergencies. TABOR will drastically cut funding for our public schools, community colleges and the University of Maine—increasing the costs to working families and denying our children opportunities. (Center on Budget and Policy Priorities)

Our union brothers and sisters in Colorado learned the hard way when their state adopted a TABOR. “TABOR cuts schools, health care and other services while letting politicians off the hook....It is a well-packaged gimmick, so don't be fooled.” (Leslie Moody, president, Denver Area Labor Federation)
